## EXPERIENCE

### Teaching Assistant, University of Toronto Scarborough

*September 2021 – April 2022*

- Taught Linear Algebra I, Calculus I, and Computer Science II, mentoring around 20 students per course.
- Graded quizzes, tests and homework to provide students with timely academic progress information and feedback according to university standards.
- Encouraged class discussions by building discussions into lessons, actively soliciting input, asking open-ended questions and using techniques to track student participation.

### Online Tutor, TutorOcean

*October 2020 – present*

- Analyzed student progress to adjust lesson planning for improvement.
- Collaborated with 30+ students to complete homework assignments, review material, identify lagging skills, and correct weaknesses.
- Developed student confidence through attentive instruction in calculus and linear algebra, applying positive reinforcement strategies.

### System Analyst Co-op, TTC

*January 2021 – April 2021*

- Mapped Excel processes to holistically examine business flow and identify improvement opportunities, reducing task work by 80%.
- Synthesized current business intelligence data to produce reports and polished presentations, highlighting findings and recommending changes.
- Created accurate and efficient VBA macros to manage automated formatting of specific audit data.

### Application Development Co-op, Softchoice

*May 2020 – August 2020*

- Delivered performance-driven and user-centric websites using SQL, LINQ and JavaScript that met all business requirements, allowing managers to monitor their monthly sales performance.
- Designed and implemented a notification schedule tool that automates site maintenance emails for employees.
- Reviewed code to validate structures, maintain organization architecture and verify browser, device and operating system compatibility.
